About me

I'm currently Software Development student and self-taught programmer. My mission is that I want to use technologies to connect people. My vision is to create emotions in the people that they will see any page that I have built using my web skills. Enthusiastic geek and fan of Asian culture.

Professional experience

Seller

2020 – 2021

A-Móvil

I was work in charge of shop, I was needed organized they to reach the goals of the month.

I improved skills like conflict resolution, leadership and staying calm in any situation.
